Anthropological Research

Awards of up to \$15,000 support conferences and workshops that help create an international research community of scholars in anthropology and advance anthropological research. For conference grants, priority is for major annual or public meetings sponsored by international scholarly organizations; majority of funds should go toward travel for presenters. For workshop grants, priority is for discussion and debate rather than the presentation of papers; workshops should result in a publication. See <http://www.wennergren.org/programs/> for details.
